OREGON
State Insane and Idiotic Asylum
DRS. HAWTHORNE & LORYEA,
Physicians and Proprietors
IN PURSUANCE OF A LAW PASSED BY THE PRESent Legislative Assembly, the Oregon State Insane and Idiotic Asylum is located in East Portland in this county, Drs Hawthorne & Loryea, Physicians and Proprietors
The Proprietors of the above Establishment will immediately make additions to their present buildings, in order to offer accommodations to all who are unfortunate enough to need the care and treatment of an Insane or Idiotic Asylum.
It is especially requested on the part of County Judges, Guardians and Friends of this class of patients, to have them immediately conveyed to the Asylum, so that they may be properly cared for before the inclement weather sets in
THE INDIGENT WILL BE SUPPORTED AT THE EXPENSE OF THE STATE, and no record of debt made against them For further particulars apply to Drs HAWTHORNE & LORYEA, Physicians of the Oregon State Insane and Idiotic Asylum

DR. W. KOEHLER,
Surgical & Mechanical Dentist,

Deutscher Zahnarzt,
TAKES PLEASURE in announcing to the citizens of Portland and vicinity that he is now permanently located in this city, and fully prepared to perform all the Operations belonging to the Dental Department in the most competent and professional manner, in Surgical Treatment as well as in the construction of ARTIFICIAL TEETH, in the newest and most improved methods, on the following materials.
GOLD, PLATINA, SILVER, RUBBER, AMBER, or CORALITE BASE,
at the option of the Patient
The Extraction of Teeth by his method is new to any other, as the patient need not undergo the unpleasant, I not dangerous state of inhaling Chloroform, but will have his teeth extracted without that horrid pain which began really to create to the last moment of suffering
All operations warranted to give satisfaction, or no charge will be made.
Special attention paid to the regulation of children's teeth.
Difficult Dental Operations particularly solicited.
Ladies waited on at their residences if desired
References of Physicians and Families given at the Office.
Prices will be moderate in all cases

Pro Bono Publico!
IF YOU LOVE YOUR COUNTRY, encourage Home Productions. Why will you send abroad for wretchedly spurious articles, when you can have the good and true and beautiful of Oregon material and Oregon workmanship close at your very doors?
Why impoverish your country and its mechanics by the calculations of Prejudice, or by parsimonious misdirection?
HORATIO COOKE & CO.,
Corner of Alder and Second sts., Portland,
Have now on hand and are steadily constantly increasing a Large Stock of
Household Furniture
of Oregon Material and Oregon Workmanship.
The following articles will be found to be part of their stock.
BEDSTEADS, CHAIRS, BUREAUS,
TABLES, CENTRE TABLES,
WRITING DESKS
LADIES' WORK STANDS,
WASH STANDS,
CHESS TABLES,
ROCKING CHAIRS,
ARM CHAIRS, CRADLES,
CRIBS, SAFES,
SASH AND DOORS.
Other articles, too numerous to mention, either on hand or made to order.
The superscribers would modestly refer to the most gracious public of the State of Oregon that they would gladly exchange any or all of the above articles for "READY MONEY," or any other article of commerce that will by the conveyance give pleasurable sensations to the high contracting parties.

The life-spring of trade, "READY CASH,"
No matter in which way we view it,
Enables us onward to dash,
And therefore we mean to stick to it.

Billiard and Ten Pin Balls turned to the most exact spherical conformation.
Various kinds of turning executed with the beauty of true taste, and to the truth of true order.
Lots fenced in with strength and beauty.
Portable shelving for stores, strong and handsome. Suitable alike for walls or central range; can be taken away at any time without injury or disturbance to the Store 12

H. H. BLACK,
Dentist,
(Late of the Cincinnati College of Dentists,)
Office and Labratory, No. 10, Alder street,
Four Doors from Front, Portland, Oge.
HAVING secured the services of Dr. C H. MACK, formerly of New York city, and late of St. Louis, who is an experienced and skillful Dentist, I am now prepared to manufacture and insert Artificial Teeth by the following methods, namely: GOLD, SILVER, RUBBER, AMBER, PORCELAIN BASE, GUM ENAMEL, RUBBER ATTACHMENT, CREDITE, CONTINUOUS GUM, MICA and ENAMELED PLATE WORK. Some kinds of this work is recommended above all others, and needs but an inspection to prove its superiority for cleanliness, durability and life-like appearance to any artificial teeth in use.
Filling and cleaning teeth, and all operations in *Dental Surgery*, either *mechanical, operative or surgical*, performed in the most thorough and highly finished manner. None but the most permanent and finished operations performed, and no inducements to patients by low priced or roughly finished operations. I use no *cement* in filling teeth, and seek in price to make no competition with cheap Dentists; and desire the patronage of such persons only as wish their operations performed in the most *perfect and skillful manner.*
Operations that fail to give satisfaction need not be taken or paid for. Office hours from 9 A M. to 4 P M. Indigent persons who are unable to pay full professional charges will call before and after office hours nov25tf

NEWS FROM JAPAN —The *Union* publishes a letter from Kanagawa, Japan, of the 24th of November, from which we quote

On the 10th at Kanagawa, from the fort was hoisted on its flag staff our glorious old banner, the stars and stripes, and a salute of twenty one guns fired, which the *Wyoming* returned, gun for gun, with the Japanese ensign flying at the fore. This was an honor which the French and English have had to acknowledge as the first regular national salute ever given by the Japanese to any nation.

And now I must briefly speak of an unprecedented entertainment given us as Americans on the 17th instant at Yedo, and which I went up to witness on special invitation

The Minister Gorojio invited our Minister, Captain McD, and each of their suits and myself—in all a party of about fourteen—to attend a review of their troops and artillery practice, which we did, at their barracks and parade ground, about six miles from the Legation The day was fine, and we were received at eleven A M. by one of the Ministers, the same who visited the ship, attended by nearly a hundred of the highest military, naval and civil officers of the Government, and conducted to a Marquee, with a kindness and cordiality that would have surprised us anywhere. Soon after, light infantry, then a battery of eight guns with one hundred artillerymen, then a regiment of eight companies, one hundred strong each, severally paraded and went through the evolutions, manual, company and regimental drill, as perfectly as regular soldiers Then marching by us in review, their step, carrying off their arms, firing by file, by sections, platoons, company, division, battery and battalion, was unexceptionable, and elicited from all of us the highest praise In fact we were completely surprised as well as delighted with all we saw. I should also say they gave us artillery and rifled cannon practice with blank cartridges, shot, shell, grape and canister, and all expeditiously well done, Their drum corps, too, was first rate—as well as all their drilling and manual of arms. We spent the entire day there, and were treated and feasted in the best Japanese style; and all together it was the greatest treat any foreigners have ever had in Japan, and a day never to be forgotten by me or any of us who were present.

I consider now our relations as firmly established and that we are in good standing with this Government.

FROM HONOLULU.—We have files of the *Advertiser* of Honolulu to the 27th of November, but cannot find anything more interesting than a dispute between a clergyman and a doctor. The clergyman, Rev. J. Sewell Smith, not satisfied with converting the natives, prescribed medicines and indulged in phlebotomy. Worse than all he did it for nothing, which of course was the worst feature in this unwarranted interference. His patients did not make much by employing him, and some lost their lives by it. Dr. James Steward pitches into the amateur physician thus, in writing to the editor of the *Advertiser*:

You tell me that Mr. Smith bleeds and purges without pay, and that this is an excuse in his behalf! The more shame to him if this be true. We have doctors in Honolulu, educated and licensed to blood, vomit, purge, cut and cure as the law provides. Mr. Smith is not a doctor and it is not his privilege to feed his swine with human blood or send his patients to heaven or hell at his own discretion. He is a missionary, let him look to the care of souls and leave the diseases of the people to the care of those who are authorized by law to attend to them.

DR J. FRASHER,
(Of San Francisco,)
PHYSICIAN, SURGEON & ACCOUCHEUR
Graduate of Cincinnati Medical College, Ohio, formerly Professor of Medical Jurisprudence, and Demonstrator of Anatomy, in the Syracuse Medical College, of New York

No flag but the Old Flag—the Red White and Blue
With the stars of a Union unbroken and true!
Arise and defend it! ye sons of the brave
Whose blood be ought the banner your valor must save

TUESDAY MORNING, JAN 6, 1863

The United States as a Continental Power

The organ of British national views in Victoria is the *Colonist* This journal is afflicted with an insatiable desire to criticise the conduct of our civil war on the Union side and neglects no opportunity to express opinions favorable to the Confederates This comes with a very ill grace from a paper published in a community where the peculiar chivalry institution of negro-whipping is rebuked by the liberal practices of its inhabitants towards the African race, and from a journal which derives a large portion of its support from its African patrons The *Colonist* seems to consider the American Union permanently severed, and thinks that it is a matter to be thankful for Of one thing our British neighbors may rest assured: that the Americans do not think so, nor do they intend to relinquish the dominant national idea of an ocean bound republic, until the last expedient has been tried to preserve the Union English journalists are not noted for their knowledge of American geography, and are remarkable for their entire ignorance of American history We propose to recall a few facts for their benefit, worthy of the intent study of our British cousins

The French statesmen of the eighteenth century conceived the idea of circumscribing the actual frontier of the, then British American settlements by exciting the minds of the Indians to maintain their possession of the country west of the Alleghanies The upshot of the French and Indian war showed that the British had defeated the design When the colonies revolted, the British succeeded to the French scheme, and, in contravention of the definitive treaty of peace, refused to give up the forts in Ohio—plainly showing that the new line of repression was the Ohio river By the energy of Gen Wayne, and to avert the chances of war, they finally gave up the forts in the West Then the war of 1812-13-14-15, broke out, and the British tried to establish a new line of repression by the conquest of Michigan and holding the line of the Illinois river, thus cutting off our people from territories now inhabited by millions of Americans. The savages were again called into requisition, to help the British, and again the project of repression failed, after a hard struggle. Again, in 1846, the British made an issue with us in regard to this State and Washington Territory, and again the Americans triumphed In 1858, they thought we were getting too strong a position on the North eastern frontier, and were in a position to threaten the St Lawrence—the outlet of the Canadas We hold all that is desirable, and in case of war would take the Canadian provinces by the throat and choke them into submission, For if we cut off their communication with the mother country, they could offer no effectual resistance to the Union

We have thus pointed out the fact that the French first desired to repress the British, the British the Americans, and that every attempt to do it has failed The scheme is not yet abandoned Driven to the frozen regions of the North west, the British still think there is a chance to stop the tide of American progress. In this hope they give words of cheer to our misguided Southern brethren, not reflecting that peace must at last come. And if with peace there should be Union—and what loyal man doubts it—then where are the hopes of British supremacy? The thrice-exploded scheme of repression will need but one more defeat to leave our arrogant critics without a foot-hold on the continent

WOMAN'S RIGHTS —Sarah E Wall, of Worcester, Massachusetts, is opposed to taxation without representation She is not represented and refuses to pay taxes in consequence of the following from the tenth article of the bill of rights 'No part of the property of any individual, can, with justice, be taken from him, or applied to public uses, without his own consent, or that of the representative body of the people' The question arises whether Sarah can call herself a male or not

SURVEYS IN OREGON AND WASHINGTON — The Commissioner of the General Land Office reports that the amount of land surveyed in Oregon, during the past year is 6,219,681 acres, in Washington Territory, 2,803,457 acres The amount of land offered for sale in this State, in May last, was 4,422,700 acres The Commissioner says that the public lands now surveyed in Washington Territory, will shortly be offered for sale

PENNSYLVANIA TROOPS —The One hundred and seventy fifth Pennsylvania regiment is in active service It is composed largely of conscripts, but experience proves that they are as good as volunteers only not so ready to make a commencement

SNOW —The *Mountaineer* of January 4th, says that on the morning of the day before snow commenced falling at the Dalles, and by night it was fifteen inches deep This corresponds nearly with the light fall of snow experienced here

A Glance at the Monthlies

The *Atlantic Monthly* was formerly very much the favorite of a select few literary men who even now part transferred their affections to the *Continental Monthly* The *Atlantic's* pages were adorned by the productions of the best minds of New England and gave a preference to the productions of American authors which gave it a high place in public esteem Gradually its circulation narrowed until the Middle States newspaper and politicians revolted and at their revolt arose the *Continental* which to an extent fell within the footsteps of the *Atlantic* but is not quite so heavily charged with the peculiarities of the modern Athenian It numbers among its contributors E P Stanton R J Walker John G Nicolay Horace Greeley and others of like cultivated men more noted for their vigor intensity and argumentative force and frankness than for the flowing sentences and easy cadences of their Boston rivals In the particular of abolitionism the *Continental* is quite the standard of the *Tribune* In its political article for December entitled, Union," it brings up the oft repeated contrast between freedom and slavery and by the forcible antithesis of the census proves the superiority of the former. It requires no originality to do this as Helper has been before the writer and did his work clean and well But the elaboration of all the accusations in the indictment against slavery the summing up and the sentence are original enough to deserve republication:

Slavery, then, the census proves, is hostile to the progress of wealth and population, to science, literature, and education, to such its colleges, and universities to books and libraries, to churches and religion to the press, and therefore to free government hostile to the poor keeping them in want and ignorance hostile to labor reducing it to servitude, and decreasing two thirds the value of its products hostile to morals, repudiating among slaves the marital and parental condition, classifying them by law as chattels, darkening the immortal soul and making it a crime to teach millions of human beings to read or write. And shall labor and education, literature and science, religion and the press sustain an institution which is their deadly foe?

But slavery is the enemy of free government. It has commenced and now wages an unholy war against this Union, and thus assails the liberty of our country and of mankind It has framed a government based on the eternity of chattel slavery, and demands in its name to rule the larger portion of the Union It seeks to sever the lakes from the gulf, and the mighty Mississippi and its vast arterial tributary system It asks to be *let alone* in the commission of all these heaven daring crimes In the name of my bleeding country, of the millions whom it has doomed to death, or wounds or chains, or misery in the name of the widows and orphans it has made whose bitter tears and agonizing sighs now fill our land with sorrow, in the name of the free and blessed government it seeks to overthrow and the glorious Union it strives to dissolve in the name of God and man, of religion and liberty, the world arraigns the criminal at the bar of justice Now is the day of trial but many hopes and fears, mankind awaits the verdict It is rendered *Guilty* upon every charge of the indictment, and heaven records the righteous sentence—*Slavery must die that the Union and liberty may live forever!*

The Editor's Table is a most entertaining conglomeration of odds and ends, in which there is food for every mind, whether grave or gay

The ladies will find in *Peterson's* and *Godey's*, fashions enough to furnish an excuse for any amount of extravagance Ways and means are devised, in their pages, for the expenditure of every surplus dollar, and many that would be better applied to other purposes. They also contain much valuable information about thrift and housewifery, which is in the shape of an offset to the millinery departments.

Lovers of perfectly awful fictions, improbable love-stories, sketches of criminal life and life in unmentionable places, will find in *Ballou's Monthly* a feast There are those minds which prefer the improbable to that which is true to nature, just as some men use cayenne at the table—the mind and palate being vitiated, nothing but *spice* will arouse the languid appetite

FROM GUAYMAS —A correspondent of the San Francisco *Herald*, writing from the above point, under date of December 3d, says

MINING enterprise is all the talk at present The most flattering reports are coming in constantly concerning their extent and richness I was happy to learn on my arrival here that Major Ferguson who had come down to survey the road from Tucson to Port Liberstad, had returned, and found everything even more satisfactory than was anticipated I hope that this report to the Department will have decided the shipping of Government stores for Arizona through that port Every preparation has been made to receive them and Gov. Pesquiera offered all the assistance in his power to secure the success of the enterprise The inhabitants of that part of Sonora look with delight to the prospect of immigration in their direction, and I am assured that they are willing to make free grants of lands and also facilitate in every way the development of the mineral wealth I intend leaving in a few days for the Cruseritas mine about 25 leagues from here which mine we intend working.

The great demand for woolen stuffs has induced the erection of a number of new woolen mills in the Eastern States, and so much is the trade stimulated that farmers in that region are turning all their energies to the growth of sheep With the increase of the wool clip of this State, we should be able to produce the coarser woolen fabrics cheaper than any other State in the Union.

MASONIC —The officers of Washington Lodge No 4 at Vancouver were installed on Saturday evening last by R W Deputy Grand Master L Sohns They are Levi Barnsworth, W M, S C. Achilles S W, and D R Fales, J W

REMOVAL —From intelligence received from Olympia, we are informed that there is a prospect of the removal of the capital of Washington Territory to Vancouver

DARK DEED.—Two African gentlemen in Dalles inaugurated the new year by a shooting match in which one of them was seriously injured in the side

Miscellaneous Paragraphs

The world works of cattles compared to their relatives and rags to fighting

The Boise Basin mines in the eastern portion of Washington Territory are said to be paying from $8 to $30 a day

Of the regular army officers now in service 1,040 were born in the United States 160 in the revolutionary and 30 are of foreign birth

The Congressional Library now contains 60,000 volumes of which have been removed to the new fire-proof building

The Nevada Territorial Legislature is now discussing the expediency of loaning the Territorial treasury to the extent of half a million dollars in bonds to aid in building the Pacific railroad

The San Domingo *Republican* has been published for ten years a daily paper in St Thomas California It issued its last number to the Stockton people on Saturday the 20th of December and will hereafter be published in Sacramento to take as the organ of the democracy

The Confederates have arrested an English man named Kirby on the charge of being a Federal spy Kirby has attracted much attention from the Union authorities by his important services as a secret agent He is a man of extraordinary personal advantages, of daring courage and undoubted loyalty to the Union cause His chances for life appear to be very limited

Coughs —The sudden changes of the climate are productive of PULMONARY BRONCHIAL and ASTHMATIC AFFECTIONS Experience has proved that simple remedies often act speedily and certainly when taken in the early stages of the disease recommended as one he had to *Brandreth's Brandreth Pills* and congress let the Cold Cough or irritation of the Throat be ever so slight as this precaution may more surely attack may be effectually warded off Public Speakers and Singers will find them effectual for clearing and strengthening the voice See advertisement dec16d&w3m

White's Fever and Ague Drops—For the cure of AGUE PANAMA FEVER, NEURALGIA and GENERAL DEBILITY

This medicine has been used in private practice for many years with great success Indeed, in no instance has it failed to effect a speedy cure in Ague especially and both it can be found sufficient in most cases and in none are more than two bottles required

A great number of testimonials could be given to verify these statements but the proprietor prefers relying upon the merits of the medicine alone A cure is guaranteed in nine cases out of ten

White's Patent Lever Trusses —These instruments are recommended to the public as the best ever yet invented Their principle is new and different from any other The Patentee who over a half a decade ago gave a circular INWARD and UPWARD motion, thus being able to support the rupture with half the pressure required by other Trusses The pain consequent upon heavy pressure is thereby avoided

These instruments will last, and are the lightest most durable and most cleanly of all others They can be washed at pleasure Many persons have been cured by them of ruptures of several years standing

For sale by EDWARD HALL & CO Wholesale Druggists, 538 Washington street, San Francisco, Sole Agents for the Pacific Coast sep4 3m

MARRIED:

On the 3d of January by J F McCoy City Recorder at the New York Hotel in the city of Portland William Hooper and Miss Mary Hull, of Hillsboro, Washington county Oregon

DIED:

In Washington county Oregon, at the residence of his daughter near Forest Grove, William Jolly (father of Rev Wm Jolly of Washington county) aged 83 years and 8 months

He was born at Wheeling Virginia; was a pioneer with the Cherokee Indians in Tennessee and Georgia, six years; spent a moral life; in 1845 in Winnebago county, Illinois made a profession of religion and lived an exemplary life He bore his afflictions with unparalleled patience, and has left a large circle of relatives and acquaintances to mourn the loss of one so universally loved W. S.

DOCTOR VAN ZANDT,

CONSULTING PHYSICIAN & SURGEON

Office Corner of Washington and Sansome streets, San Francisco

The GREAT SUCCESS of this NATURAL and AID to NATURE MEDICINE

The Mysterious Power of Water & Nature Electricity Combined for the Cure of all Nervous and Special Diseases

THAT THIS CHRISTIAN PHILOSOPHICAL and Medical Institute has attained a great success in the treatment of Chronic Diseases is fully attested by the many grateful testimonials which have been received from those who have been restored to health by its agency Many of these cases were pronounced incurable by the most skilful physicians, and had been given up by their friends as hopeless

Too Much Cannot be Said

in praise of this Institution and its Physician Dr Van Zandt, whose skill in the treatment of Chronic Diseases is unsurpassed by any physician in the State

Awaken the Magnetic Life within us

This is the great secret of the cure of disease, which will positively be imparted to every patient who visits the Institution Dr Van Zandt will be found at his office from 9 A M to 4 P M daily

No Compromise with Disease

Dr Van Zandt will not undertake any case unless he is satisfied that he can cure it

To the Ladies of California.

Dr Van Zandt's long experience in the treatment of Female Diseases, and his extensive practice among the ladies of California, who have personally tested the efficacy of his delicate system of treatment, which are the result of his long study and practice, have induced him to devote special attention to this delicate class of diseases

Baffled the Skill of Physicians

Do you experience a sinking feeling at the pit of the stomach, under the arms, weakness, loss of memory, extreme timidity and fitfulness, nervous headache, cough, sleeplessness, unpleasant dreams and that general prostration of the system which gets you out of bed in the morning and leaves you so tired and weary that you feel as if you had not slept at all Dr Van Zandt will, by his new method of treatment, the Electro-Galvanic current (which has received the highest commendation from the Medical Faculty of California) will assure you of a complete and radical restoration of all bodily and mental infirmities

None Need Despair of Relief

If you have ulcers which will not heal—pains that cannot be removed—melancholy which you cannot shake off—loss of power which you cannot regain—a depression of spirits which weighs you down—wakefulness that knows no sleep—a stomach that languishes for want of energy—a void which society can fill—a suspicion which no assurance can allay—Go to Dr Van Zandt for his great success and the safety with which he adapts his treatment to the peculiarities of each patient, together with his remedies which are adapted to the requirements of climate and constitution will assure you of a complete and radical removal of all bodily and mental infirmities within the scope of science and man to remove

The Eye and Ear Diseases.

It must not be forgotten by the eye and ear sufferers that Dr Van Zandt has made these afflictions an especial study, and that he is the only Surgeon in our State who has the diploma for that branch of practice Very many of the eye and ear troubles are purely deranged nervous actions and are cured by his electro-galvanic battery—as amaurosis, squinting cataract, floating specks before the vision, tickling of the eyelids nervous deafness roaring and buzzing noises in the ears giddiness etc All operations successfully done on those delicate organs of sense

The Daily Oregonian.

CITY.

The MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

THE MILWAUKIE ROAD.—Below will be found the several bids for building the Portland and Milwaukie McAdamized Road, with the date upon which the various bidders propose to have the road finished

No 1	James Atherton to be completed by 10th August 18	$56 000 00
No. 2	Fogarty & Brant July 1st 186	50 00
No. 3	Wm H French	86 000 00
No. 4	David Wright	8 162 50
No 5	David P Thompson	64 000 00
No 6	A L Marshall & Thos Young do	71 450 00
No 7	James M Pierce & A McCourt do	6 500 00
No 8	J F Carr to be completed by August 1st 1863	23 000 00

The contract was awarded to Mr Carr, who is perfectly able to go through with it, even if it should prove a losing bargain

It will be noticed that the next lowest bid is divided from Mr Carr's by a slight difference of $31,000, which shows that different men looks at the same thing differently The contract was closed yesterday, and satisfactory bonds taken that the work should be finished on the 1st of August, with a forfeit affixed of $50 a day for each day after that period that the road is not completed The building of this road is calculated to have a very beneficial effect on the city trade, by bringing farmers to this place with their produce in their own wagons Of the future extension of the road up the valley there can be no doubt, and it only remains to be seen what farming community will lend the most assistance to induce its construction through its lands. This enterprise, so auspiciously commenced, will not we hope be the only one of like character which the property holders of the city and country will mark out and complete There is a wide field for improvement, with a prospect of money being made by judicious investments

SERIOUS ACCIDENT.—Patrick Manning, brother of Lewis Manning of this city left town, a few days since, to go into the country He took two horses and a buggy and while on the road to the Tualatin bridge, his horses became unmanageable and ran away, throwing him from the vehicle and inflicting serious injuries on his head and other parts of his person One of the horses was killed in its mad career through the timber

RISE IN THE WILLAMETTE.—The Willamette is rapidly rising and its waters are covered with drift-wood We hope to see it at a stage that will insure safe navigation above the Falls until produce of the upper country can be brought down To this end we raise the somewhat unusual cry, for Oregon, of "More rain"

IMPROVEMENT.—The property-holders on Front street, between Washington and Alder, are putting down plank on the sections hitherto paved with gravel and stone The new mode is undoubtedly the best, and should prevail until some uniform method of paving is adopted, and good drainage secured

NO CONNECTION.—The Sacramento mail is now brought from Oregon City on the steamers. The *Rival* waited until 4 P M yesterday, and the stage not having arrived she came down without the mails

ACADEMY.—The Portland Academy and Female Seminary commenced its new term yesterday. Arrangements have been made for a course of lectures, which will no doubt be useful and interesting.

DISTRICT SCHOOL.—The First District School re-assembled yesterday The youngsters having had more than a week of fun, return to their studies with renewed energy

IN THE RIVER.—The bark *Sam'l Merritt* is in the river. The steamer *Express* went down to tow her up, yesterday morning

HOW THEY SEE IT IN WASHINGTON.—The *National Intelligencer*, of the 2d of December, speaks of the President's Message in the terms copied below. That journal has for fifty years maintained the character of being the ablest and most dispassionate American political newspaper, and its comments are in remarkable contrast to the smartness manifested by our cotemporaries in speaking of the same subject:

No reader can fail to be struck with the force of the geographical argument, as stated by the President, against the policy or the possibility of any permanent separation of the States now embraced in the Union. And the conservative power—a power especially conservative of the Union—which he finds in the position and the economical necessities of the great mediterranean region of our continent must give new heart and hope to all who await the agitations of the present time, refuse to believe in other than "one country one Constitution and one destiny" for the people of our distracted land

The chief interest of the Message will naturally be found by every reader in that portion which treats on the relations of slavery To this the President has evidently given a consideration at once elaborate and earnest The merely incidental manner in which he refers to the Proclamation of last September 22d, especially when taken in connexion with the expression he has given to his favorite project for "compensated emancipation," sufficiently indicates the direction in which he looks for a beneficent melioration in the condition of the African race now held in bondage. It is impossible to read what he has written under this head without feeling respect for his candor and his patriotic inspirations, however much the reader may dissent from the practicability of the plan which he urges upon the adoption of Congress and the acceptance of the country But if no immediate good is destined to result from the recommendation of the President's plan for ending the war by providing for the peaceful and gradual extinction of slavery, the tolerant and conciliatory spirit in which he discusses its details cannot be regarded as other than an omen of good by the friends of the Union, among whom as the President says, "there is a great diversity of sentiment and policy in regard to slavery" In seeking to arbitrate among these diversities of honest convictions he gives a proof of practical statesmanship, which in the spirit it manifests, is hopeful beyond the letter of the plan he expounds. And if it be true, as the President says, that because of these diversities, we waste much strength in struggles among ourselves, he has certainly by his example, invited the patriotic of all opinions to practice that 'mutual concession by which' we should harmonize and act together" This he adds, 'would be compromise, but it would be compromise among the friends and not with the enemies of the Union" We hope that the censorious and exacting of every class will learn to emulate the President's moderation in this respect

DR BAKER'S
PAIN PANACEA.
Is composed entirely of healing gums and vegetable oils and herbs It is perfectly safe for the most delicate to use Persons at a distance may rest assured that I have never known any however delicate to be injured by it in the least I will confidently invite the afflicted, who have not used it, to try it For the following diseases If they are not satisfied with its healing properties, the money will be cheerfully returned by the agent where the medicine is for sale
If you have pain in the stomach or bowels try a dose of Pain Panacea internally bathe externally over the parts affected, and how will at once restore the proper action and relieve the pain
If you have a Bruise or Wound bathe it well with the Pain Panacea four times a day It will relieve the pain, and take out all the poison and heal the wound in a short time
If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely and take a dose of it internally morning noon and night It will not only cure the pain but will remove the cause of the disease
If you have the Dyspepsia and your food distresses your stomach after eating take a dose of Pain Panacea after each meal.
If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea to the affected parts and gargle the mouth or throat three or four times a day
If you have the Diarrhœa or a relaxed state of the bowels take a dose of Pain Panacea, and they will soon be restored If you have a painful swelling, bathe the parts freely and you will soon release pain, and the swelling will be reduced.
If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe the gum at the same time, it will stop the pain instantly
If you have pain in the Breast, Side, Back or Kidneys, bathe parts affected morning and night at the same time take a dose of the Panacea internally
If a Mother has a caked breast, apply the Panacea as hot as it can be borne
If you feel chilly or cold as though you were going to have a fever, take a dose of Panacea
If you have a wound cut, or galls upon your horse apply the Pain Panacea it will take out all the inflammation and heal the sore in a short time

NEWSPAPER ARCHIVE®
NEWSPAPER ARCHIVE®

The American Gold Fields.

The Commissioner of the General Land Office in his report makes some statements in relation to the gold fields of the west side of the continent which will be found of interest although containing many errors The plan for working the gold and silver mines will attract the attention of all who are engaged in the production of the precious metals We copy in full from the report

This vast region stretching northward to south first and last the Rocky Mountains the Sierra Nevada and Cascade Mountains the Blue and Humboldt the Coast and Little Range and Rocky Mountain mining the West and the Wasatch mountain and the Sierra Madre—separating principally and unalterably our people and all together by mountain ridges constituting the whole state and by navigable streams dividing the country into an equal number of basins each being nearly surrounded by mountains and watered by mountain streams and snows—thereby interspersing this immense territory with fields of agricultural lands equal to the support not only of miners but of a dense population

Besides their wealth in gold no part of the world is so rich in silver mines as Nevada and New Mexico yet these may be estimated as only in proportion to the gold fields, which are in process of development with amazing results. The recent discoveries in the Colorado or southern portion of California and in the region stretching thence away up to and north of the Salmon river in Washington Territory, are every day stimulating the mining enterprise of our people

In 1854 the yield of California was $70 000 000 about four times the aggregate gold product of the world prior to 1848 and that sum may be set down as the present average from that State alone If we compare the known gold fields elsewhere in our public domain with the yield of California we would have, if an equal ratio of labor was applied an annual value of between $300,000 000 and $400,000 000

Even in the distant Territory of Washington, the extreme mosaic block of the Union the product of the Salmon River Mines has been estimated at $20 000 000 the present year—the developments there, too having been made under every disadvantage that in a season of unusual severity with deep snow next in restricted facilities of travel into the interior, and with inadequate labor and in times of domestic turmoil

An immense revenue may be steadily obtained by subjecting the public mines either to lease, under quarterly payments or quarterly tax, as seignorage upon the actual product under a well regulated and efficient system which would stimulate the energies of miners and capitalists, by securing to such classes an undisputed interest in localities for specified and when the conditions as to payment for the usufruct are complied with, for unlimited periods, and while effecting this, with beneficial results to them, would relieve the necessities of the Republic

Assuming the national debt, on the 1st of July, 1863, to be $778,000,000, the Commissioner says that a tax of some eight per cent on the whole yield of the mines, would, upon the maturity of a proper mining system, and when the same shall eventually go into full operation pay off this interest, enable the Government to reduce by at least two-thirds, the existing direct tax and from the residue and imposts, have an annual income sufficient to support the Government, and provide a fund for the gradual extinction of the public debt, and restore the currency to a metallic basis

The usual size of a mining claim in the quartz region is one hundred feet on the line of the lode or vein and one hundred feet on each side, equal to an area of 20,000 square feet, or say 1,900 claims to the square mile Allow that only one hundredth part of the mountain surface is occupied by paying leads or veins, there will be space for 8,600,000 claims But Governor Evans of Colorado estimates the already discovered gold bearing region in that Territory as affording ample room for 8,000,000 claims, and states that new discoveries are daily increasing this area

A glance at the map is sufficient to show that the mineral region of Colorado occupies less than one-sixth of the whole extent under consideration, but assume it to be one-sixth, there will be ample extent on this basis for 4,800,000 claims, which, if worked, would give employment to 20,000,000 of men — Quartz that yields $12 per ton will pay in favorable localities, but there are many veins now worked that yield from $20 to $500 per ton, and some that yield from $500 to $2 000 per ton, varying in different parts of the same lode Some of the recent discoveries are estimated as high as $20,000 per ton, but these have not been worked.

None of these mines have been worked for a great length of time, except the placers of California, and much the largest portion of them are comparatively recent discoveries, yet it has been fully demonstrated that the deeper the mine is worked the richer is the ore or rock Mines that barely paid at the surface are yielding enormous profits at a depth of one hundred and fifty to two hundred feet And when the geological formation of this region is carefully considered it will be conceded that even the precious metals must be found in masses and in position if a sufficient depth shall be reached

The above estimate of the extent of the mines may seem extravagant, but it is believed experience will demonstrate that the estimate is too low Not now, nor for many years to come, because the population is not there, but as fast as the population does reach that region the correctness of these conclusions, it is believed will be vindicated

Within the last eighteen months more has been done to establish the position assumed than all the discoveries previously made. The coming year and a half will do still more

The yield of the precious metals alone of this region will not fall below $100,000,000 the present year, and it will augment with the increase of population for centuries to come

The value of these mines to the country is absolutely incalculable—to the Government they may be made to yield in revenue just in proportion to the number of men working in them This year they should yield $10 000 000, and would do so under the operations of a well matured system The experience of miners in those districts which have been successfully worked, has demonstrated the propriety and I may add the necessity of dividing the mineral lands into small parcels or claims

This office cannot recommend any measure for the sale of the mineral lands but would advise the retention of the fee in the United states, and that they be held open to the free occupation of all our people subject only to a nominal annual license and such monthly quarterly or annual moderate percentage upon the product as shall be prescribed by law A limitation as to the quantity which may be held by any person is also advised with the guarantee that such quantity may be retained so long as the location shall be occupied worked and payments duly made to the Government

The city revenue of the Dalles amounts to about $400 a month

Home Manufacture.

Happy Valley Dec 1st 1862

J D FARMER—Seeing your call to the farmers to write for the paper I thought that I would try my hand for the first time I will not attempt to learn them (the farmers) or you anything about farming in the *Dayton* at least

Perhaps there are many who like myself know that the present times are very disagreeable to every one concerned in them by reason of the poorly of less than neither flight or the only thing remaining I trust to take greenbacks at par which I suppose you will know is very little to the farmings But there are several other things which lay heavy upon our country and that is the increased price of all articles imported to this country and let out to us by a set of men who make it their business to dive as deep as they can into the pockets of working men in general This is not mentioned as of them intending to drain the country of its substance make the present war their excuse for increasing the prices of everything, not only in such as are productions of the South but on everything else

Now the main thing I wish to portray in the best method of removing this incumbrance from our road to wealth and influence as a State We all know that the most simple and cheap method is the best the way that I mean is fully expressed in that one expression, Home Manufactures which according to my judgment, is the main pillar upon which our country should lean We are all well aware of the fact that we can manufacture all of our own woolen cloth, our syrup, our honey and numerous other articles that we need which I will not infringe upon your patience by mentioning

We have one excellent Woolen Manufactory in Salem, where they weave all kinds of woolen cloth, from the finest to the coarsest, and I learn from reliable sources, that there is a company forming in Oregon City, whose purpose is to construct another manufactory of the same character May fortune fill their pockets, and help forward all such improvements, for the prosperity of the country depends on the speed with which they are pushed forward

All kinds of *fruit* which can be raised in this country, should not be imported if we wish the money to remain here for you know that

The Pear and the Quince and the beautiful damson
And also the Peach and the Apricot rare
The Apple all tinted with yellow and crimson
Are raised in abundance by culture and care

Yours respectfully
OLD SUBSCRIBER

CROPS OF THE YEAR 1862.—The New York *Tribune* has the following concerning the crops for the year 1862 in the Western States.

When we look at the crop returns of the current season we find that all the great wheat growing region of the Northern and Western States, are now safely stored in sacks, barns or grain bins, or on their way to mill or market, the greatest number of bushels of sound wheat ever produced upon the same area The growth was magnificent, the berry large, and the crop was harvested and stored, as a general thing, in excellent condition and in good weather — In rye-growing districts, that grain is also good, and so are oats and barley In the great corn growing States of Ohio, Indiana Illinois, Iowa, etc., there is more Indian corn than ever was grown in one year before How the crop is ever to be harvested is beyond our comprehension, in consequence of the absence of so many men in the army There are now many owners of cattle in Illinois, anxious to buy fields of corn to feed, who cannot get it out Owners say 'We will sell you the field cheaper than you ever bought corn in your life, if you will take it as it stands, but I can't cut it, I would sooner give it to you standing than to harvest it at any price you would pay' Fortunately it is a crop that can be wintered in the field, and we have no doubt that millions of acres will be so wintered, and some of it will not be harvested in time for planting the next crop. It is the next crop, if any that is going to fail

RICH.—Speaking of the probable division of Washington Territory the Lewiston paper says

Reason with sense gentlemen, and act wisely we will be divided, we will show you next season 30,000 voters with us who will be represented in Congress by some one of their own choice

A Placerville paper asserts that the Colonia *Times* mails the issue of the *Mountain Democrat*, a secesh paper in the same kind of packages which are used by the *Times*; thus giving circulation to a paper which has been denied the use of the mails

Good apples such as the Porter and R I Greening have been selling the past autumn in the Boston market at 50 cents a barrel

The past autumn has been unusually pleasant throughout the United States
